ALUMINUM BRIGHTENER

Aluminum Brightener is an acid based cleaner specifically designed for heavy duty truck cleaning. It quickly removes grease, grime, exhaust residue while brightening aluminum components.

Aluminum Brightener is formulated with buffering agents and surfactants to create an even brightening affect on the aluminum.

The aluminum components (trailer edges and rims) can be left as is or buffed to a chrome like finish using Aluminum Brightener.

Aluminum brightener is great on but not limited to all of the following:

Wheels

Metal Trim

Trailers

Flag Poles

Fuel Tanks

Directions

To use: Dilute 10 parts water to 1 part Aluminum Brightener. Spray or brush onto vehicle. Agitate to remove dirt and grime. Rinse with water.

Safety Equipment

Aluminum Brightener contains a strong blend of acids. Wear protective equipment including plastic jacket and pants. Wear rubber, steel toed boots, gloves goggles and a breathing mask fitted with cartridges for acids.
