Bacto Ban Sanitizer ultra-strong disinfectant

Bacto Ban Sanitizer is an EPA registered detergent, sanitizer & disinfectant. It provides effective cleaning, sanitizing, deodorizing & disinfecting for hospitals, nursing homes, households, schools, food processing plants, mess halls, and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination.

When used as directed, Bacto Ban Sanitizer will disinfect inanimate hard surfaces such as walls, floors, sink tops, toilet bowls, tables, chairs, bed frames & telephones. For larger areas such as operating rooms, restrooms & patient care facilities, the product will provide both heavy duty cleaning & disinfecting. It also works to deodorize areas which are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins & cans.

Directions

1. Dilute sanitizer with water for selected purpose.
2. Spray or mop onto area and scrub with a brush.
3. Allow to remain wet on surface for 10 minutes.
4. Rinse with water or allow to air dry.

Application Instructions For Disinfection:

To disinfect hard inanimate surfaces, apply solution with a mop, cloth sponge or sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes.

Dilution For General Disinfection:

Add 4.5 ounces of Bacto Ban Sanitizer per gallon of water.

Dilution For Hospital Disinfection:

Add 6 ounces of Bacto Ban Sanitizer per gallon of water.

Key Features

- Concentrated
- EPA Registered Disinfectant # 1839-50
- Disinfects inanimate hard surfaces
- Safe for direct food contact
- Use as a sanitizing solution for glassware
- Safe for use on wood chopping boards
- Versatile cleaner
