

Hand Polish

Protects & Seals

Machine Polish

## tech sheet

### GORILLA METAL POLISH

Gorilla Metal Polish is a cream polish. It contains abrasives, chemical cleaners and polymers designed specifically for cleaning and then leaving behind a long lasting polymer barrier.

Use to clean and polish rims, trailers, fuel tanks, trim on RVs and delivery trucks, flag poles and anything else made of aluminum or other metals.

Gorilla Metal Polish is great on but not limited to all of the following:

Wheels

Metal Trim

Trailers

Flag Poles

Fuel Tanks

Interior Trim

Polishes aluminum & other high luster metals

#### Special Tips and Precautions

- As with all compounds, be sure surfaces are cool to the touch before applying product.
- If aluminum is severely oxidized pre-clean with Mag V before proceeding.
- Apply by hand, PC or high speed polisher.

### Key Features

- Cleans, polishes and seals aluminum and other alloys in one step.
- Can be used by hand, with a rim-polishing machine, or with a buffer.
- Neutral pH prevents pitting or staining of metal.
- Easy clean up. Any splatter dries to a powder, which easily wipes or washes away.
- Long lasting polymer protection lasts for months.
