Nano Liquid Spray on Sealant

Spray on sealant is the ultimate exterior protection for automobiles, marine craft and aircraft. It uses state of the resins and nano-polymers to create a tough, ceramic finish that protects the vehicle from acid rain, pollution, bird droppings, industrial fallout, UV, and other harm that can cause damage to your vehicle.

Spray on Sealant create a tough, clear, finish that will outlast any carnauba or montan wax. The polymers are impervious to heat and cold and are more resistant to detergents and abrasion than any natural or man-made wax.

The advantage of using the Spray on Sealants is their ease of use. Detailers can apply the Spray on Sealants faster and with less effort than a traditional sealant. And, they can achieve better shine, slickness and longevity compared to traditional wipe-on, buff off sealants. Also, there is no need for high-speed or orbital polishing machines. Great results can be achieved without them. You get long lasting results and the product becomes cured or bonded in 24 to 36 hours. Detailed use and application instructions are available.

Directions

1. Wash vehicle with Nano Liquid Car Wash Shampoo. Rinse with water.
2. While vehicle is still wet from the rinse water, spray a light mist of the Spray on Sealant onto the vehicle. Start at the front of the vehicle and work your way around it.
3. Spread the sealant with a sponge or microfiber applicator to create a thin, even coating of the sealant on the paint, plastic and chrome surfaces.
4. Just before the sealant dries, buff with a clean, dry, microfiber cloth to create a slick, smooth, even coating.
5. Allow 24–36 hours for the product to fully cure.

Key Features

- Super Quick Application
- Tough Ceramic Finish
- Contains Long-Lasting Nano Polymers
- Cures in 36 Hours or Less
- Low VOC formula
- Outlast Carnauba & Montan Waxes
- Protects Against Acid Rain, Pollution, Industrial Fallout, UV Radiation
- No Machine Polishing Required

Factory Direct Pricing
No need to keep inventory on hand, we can drop ship direct to your dealers.
